Gas Safe Register/15485445

Dear Sir/Madam

Important Gas Safety Information

This is your Buildings Regulation Compliance Gas Safety Certificate, please keep it safe.

This certificate confirms that the work recently undertaken at your property has been carried out by a Gas Safe registered business. The installing business has declared to Gas Safe Register that the work carried out complies with the Gas Safety (Installation and Use) Regulations and meets the relevant building regulations.

It is a Government requirement for home owners in England, Wales and Isle of Man to notify their local authority building control of any relevant building work carried out at their property. Your engineer has told Gas Safe Register about the work carried out and we have told your local authority building control on your behalf.

Please check that the details on the certificate are correct and if they are not please contact your engineer to request another certificate.

If you require further assistance, please contact the Service Centre on 0800 408 5500.

Yours faithfully

A handwritten signature in black ink that reads "Jonathan Samuel".

Jonathan Samuel, Managing Director.

Stay safe. Get your gas appliances safety checked every year by a Gas Safe registered engineer.
Set a reminder for your check and find out about gas safety in your area at www.staygassafe.co.uk

BUILDING REGULATIONS COMPLIANCE

This is a Building Regulations Compliance Certificate:

It confirms the work detailed below has been carried out by a Gas Safe registered business. It is also confirmation from the business that the work:

- was carried out in accordance with the Gas Safety (Installation and Use) Regulations, as well as all other relevant industry standards
- has been self certified as being compliant with Section 4 and 7 of the Building Regulations in England, Wales and Isle of Man. This certificate is evidence, but not conclusive evidence, that the requirements of the building regulations have been complied with.

It is a legal requirement for anyone carrying out gas work on your behalf to be Gas Safe registered, please remember to check your engineer's licence card before you have any gas work carried out.

Registered businesses can self certify that their work complies with building regulations requirements in England, Wales and Isle of Man. This assists you in complying with your obligation to notify your local authority building control as the property owner, and this certificate confirms this notification has been done for you.

Thank you for using a Gas Safe registered business. Gas Safe Register recommends that you have your gas appliances checked for safety annually.

Nominate gas work for inspection

GET A **FREE** GAS SAFETY INSPECTION FOR YOUR HOME

After you have had gas work completed in your property you can nominate your installation to have a Gas Safe Register inspection, to make sure it meets the right standards.

Gas Safe Register is the official list of gas engineers who are qualified to work safely and legally on gas appliances. By law, all gas engineers must be on the Gas Safe Register. Gas Safe Register exists to protect you, your family, and your property from dangerous gas work.

We inspect gas work undertaken to ensure that registered businesses continue to work in accordance with manufacturer's instructions and industry standards. To help us do this, we ask customers if we can undertake a free gas safety inspection on the completed gas work.

If you have had gas work completed in the last six months and would like us to consider the gas work completed at your property for inspection, please complete the form on the reverse. Alternatively you can contact us on **0800 408 5500** or visit our website at www.GasSafeRegister.co.uk to register for an inspection.

Please note the business that completed the gas work will be advised of the inspection, where possible, and will be given the option to attend. We cannot inspect every installation nominated and therefore advise that you may not be contacted and your property may not be selected for inspection.

Gas engineers must be Gas Safe registered in the United Kingdom, Isle of Man and Guernsey.
